

Dissemination activities of PHAR-QA partner 3 – University of Granada.

II Encuentro de Asociaciones Profesionales Farmacéuticas. La formación del farmacéutico del futuro - 6 de marzo 2015, University Francisco de Vitoria in Madrid.

The meeting gathered representatives of 23 Spanish pharmaceutical professional associations in order to discuss the training of pharmacists of the future based on their experience of everyday life of the profession. As a conclusion, the associations asked universities to include more pharmaceutical patient-centered training in their curricula.

PHAR\_QA was presented in a plenary session and invitations to visit our Website were sent to all the participants.
